Sec. 118. (NEW) (*Effective from passage*) (a) It is hereby declared that there exists concentrated poverty in the state that exacts a critical toll on poor and nonpoor residents of communities that house areas of concentrated poverty, which create lifelong and persistent disadvantages across generations by lowering the quality of educational and employment opportunities, limiting health care access and diminishing health outcomes, increasing exposure to crime, reducing available choices for affordable and properly maintained housing and imposing obstacles to wealth-building and economic mobility. It is further declared that the development and implementation of the ten-year plan under this section to eradicate concentrated poverty in the state are necessary and for the public benefit, as a matter of legislative determination.

(b) There is established an Office of Neighborhood Investment and Community Engagement within the Department of Economic and Community Development. Said office shall carry out the provisions of this section, overseeing the implementation of the ten-year plan developed pursuant to this subsection, monitoring the state's progress in reducing concentrated poverty in the state and serving as the facilitator to coordinate communication between the various parties and

(c) (1) There is established a pilot program to implement the provisions of the ten-year plan developed pursuant to this section for participating concentrated poverty census tracts. Any concentrated poverty census tract or group of tracts (A) that is located in any of the four municipalities with the greatest number of concentrated poverty census tracts, and (B) for which community members have established a community development corporation pursuant to the provisions of section 32-7s of the general statutes, to assist the municipality in which such census tract or group of tracts is located in carrying out the municipality's responsibilities under this section and the ten-year plan developed for such census tract or group of tracts, shall be eligible to apply to participate in the program. Notwithstanding the provisions of subparagraph (A) of this subdivision, any municipality in which a concentrated poverty census tract or group of tracts is located and for which a community development corporation has been established as described under subparagraph (B) of this subdivision, or any such community development corporation, may apply to participate in the program. The Commissioner of Economic and Community Development shall issue a request for proposals for participation in the pilot program and select the applicant with the highest score. As used in this section, "concentrated poverty census tract" means a census tract identified as a high poverty-low opportunity census tract, as of January 1, 2024, by the Office of Policy and Management pursuant to section 32-7x of the 2024 supplement to the general statutes.

(2) (A) The Office of Neighborhood Investment and Community Engagement shall develop a plan for the pilot participating concentrated poverty census tract or group of tracts, as applicable, to eradicate, over ten years, the levels of concentrated poverty in the service area of the community development corporation, evidenced by a reduction, to twenty per cent or lower, in the percentage of households

House Bill No. 5524

who reside in such concentrated poverty census tract or group of tracts and have incomes below the federal poverty level, as well as sustained improvements in community infrastructure and other underlying conditions that serve to prolong concentrated poverty and economic inertia in such census tract or group of tracts. In developing such plan, said office shall consult with the Office of Community Economic Development Assistance established under section 32-7s of the general statutes, the Office of Workforce Strategy established under section 4-124w of the general statutes, the Office of Early Childhood, the Department of Education, the Office of Policy and Management, the applicable community development corporations serving the participating concentrated poverty census tract or group of tracts and the applicable municipal chief elected officials and any other public or private entity the Commissioner of Economic and Community Development deems relevant or necessary to achieving the purposes of this subsection.

(C) On or before June 1, 2025, the Commissioner of Economic and Community Development shall inform the joint standing committee of the General Assembly having cognizance of matters relating to finance, revenue and bonding, in writing, of the progress made to date in the

Said office, official and corporation shall (A) determine the types of projects they deem to be the most appropriate and effective for such census tract or group of tracts to eradicate concentrated poverty within such census tract or group of tracts, including, but not limited to, capital projects, workforce development programs, housing development, community and neighborhood improvements and education initiatives to assist and support residents in meeting and surpassing the educational metrics described in subparagraph (B)(ii) of subdivision (2) of this subsection, and (B) take into account the criteria for projects eligible for grants under sections 32-7s of the general statutes, 32-7x of the general statutes and 32-285a of the general statutes.

If the commissioner recommends expansion under subdivision (1) of this subsection, the commissioner and the Office of Neighborhood Investment and Community Engagement shall immediately undertake such expansion.

(f) On and after July 1, 2027, if any state or municipal official responsible for carrying out a requirement or responsibility under the provisions of this section or a ten-year plan fails to do so in a timely manner, any community development corporation established as described under subparagraph (B) of subdivision (1) of subsection (c) of this section that was (1) selected pursuant to the request for proposals under subdivision (1) of subsection (c) of this section, (2) can demonstrate good faith efforts to effectuate the ten-year plan, and (3) is aggrieved by such failure may bring an action against such official in the superior court for the judicial district in which such census tract or group of tracts is located for a writ of mandamus to compel such official to carry out such requirement or responsibility.

If the person to whom such notice is issued is a registrant, the municipality may deliver such notice in accordance with section 7-148ii, provided nothing in this section shall preclude a municipality from providing notice in another manner permitted by applicable law.

Sec. 137. (NEW) (*Effective January 1, 2025*) (a) For purposes of this section, "valuation allowance" means the portion of a deferred tax asset for which it is more likely than not that a tax benefit will not be realized, as determined in accordance with generally accepted accounting principles.

(b) (1) Any combined group that is described under subsection (b) of section 12-218g of the general statutes, is claiming the deduction under subsection (d) of said section and did not include in the computation of such deduction the impact of any valuation allowance arising from the enactment of sections 12-218e and 12-218f of the general statutes, shall be eligible for the deduction under this subsection.

(2) If the provisions of sections 12-218e and 12-218f of the general statutes resulted in an aggregate decrease in the amount of net operating losses or tax credits a combined group's members may realize in the state and a valuation allowance was reported in accordance with generally accepted accounting principles, the combined group shall be entitled to a deduction as determined under this subsection.

(3) For the thirty-year period beginning with a combined group's first income year that begins in 2026, a combined group entitled to a deduction under this subsection shall deduct from combined group net income an amount equal to one-thirtieth of the amount necessary to offset the increase in the valuation allowance against net operating losses and tax credits in the state, as computed in accordance with

House Bill No. 5524

generally accepted accounting principles, that resulted from the enactment of sections 12-218e and 12-218f of the general statutes. Such increase in valuation allowance shall be computed based on the change in valuation allowance that was reported in the combined group's financial statements for the income year commencing on or after January 1, 2016, but prior to January 1, 2017.

(c) The deduction computed under subsection (b) of this section shall not be reduced as a result of any events happening subsequent to such computation, including, but not limited to, any disposition or abandonment of assets. Such deduction shall not alter the tax basis of any asset. If the deduction under subsection (b) of this section is greater than the combined group net income, any excess deduction shall be carried forward and applied as a deduction to combined group net income in future income years until fully utilized.

(d) Any combined group intending to claim a deduction under this section shall file a statement with the Commissioner of Revenue Services on or before July 1, 2025, specifying the total amount of the deduction the combined group claims. The statement shall be made on such form and in such manner as prescribed by the commissioner and shall contain such information or computations as the commissioner may specify. No deduction shall be allowed under this section for any income year except to the extent claimed on or before July 1, 2025, in the manner prescribed. Nothing in this subsection shall limit the authority of the commissioner to review or redetermine the proper amount of any deduction claimed, whether on the statement required under this subsection or on a tax return for any income year.

(a) (1) Each town or regional school district shall be eligible to apply for and accept grants for a school building project as provided in this chapter. Any town desiring a grant for a public school building project may, by vote of its legislative body, authorize the board of education of such town to apply to the Commissioner of Administrative Services and to accept or reject such grant for the town. Any regional school board may vote to authorize the supervising agent of the regional school district to apply to the Commissioner of Administrative Services for and

House Bill No. 5524

to accept or reject such grant for the district. Applications for such grants under this chapter shall be made by the superintendent of schools of such town or regional school district on the form provided and in the manner prescribed by the Commissioner of Administrative Services. The application form shall require the superintendent of schools to affirm that the school district considered the maximization of natural light, the use and feasibility of wireless connectivity technology and, on and after July 1, 2014, the school safety infrastructure criteria, described in section 10-292r, in projects for new construction and alteration or renovation of a school building. The Commissioner of Administrative Services shall review, in consultation with the Commissioner of Education, each grant application for a school building project for compliance with educational [requirements and on the basis of categories for building projects established by the Commissioner of Administrative Services in accordance with this section] specifications. The Commissioner of Education shall evaluate, if appropriate, whether the project will assist the state in meeting its obligations pursuant to the decision in *Sheff v. O'Neill*, 238 Conn. 1 (1996), or any related stipulation or order in effect, as determined by the Commissioner of Education. The Commissioner of Administrative Services shall consult with the Commissioner of Education in reviewing grant applications submitted for purposes of subsection (a) of section 10-65 or section 10-76e on the basis of the educational needs of the applicant. The Commissioner of Administrative Services shall review each grant application for a school building project for compliance with standards for school building projects pursuant to regulations, adopted in accordance with section 10-287c, and, on and after July 1, 2014, the school safety infrastructure criteria, described in section 10-292r. Notwithstanding the provisions of this chapter, the Board of Trustees of the Community-Technical Colleges on behalf of Quinebaug Valley Community College and Three Rivers Community College and the following entities that will operate an interdistrict magnet school that will assist the state in meeting its obligations pursuant to the decision in *Sheff v. O'Neill*, 238 Conn. 1

House Bill No. 5524

(1996), or any related stipulation or order in effect, as determined by the Commissioner of Education, may apply for and shall be eligible to receive grants for school building projects pursuant to section 10-264h for such a school: (A) The Board of Trustees of the Community-Technical Colleges on behalf of a regional community-technical college, (B) the Board of Trustees of the Connecticut State University System on behalf of a state university, (C) the Board of Trustees for The University of Connecticut on behalf of the university, (D) the board of governors for an independent institution of higher education, as defined in subsection (a) of section 10a-173, or the equivalent of such a board, on behalf of the independent institution of higher education, (E) cooperative arrangements pursuant to section 10-158a, and (F) any other third-party not-for-profit corporation approved by the Commissioner of Education.

(2) [The Commissioner of Administrative Services shall assign each school building project to a category on the basis of whether such project is primarily required to: (A) Create new facilities or alter existing facilities to provide for mandatory instructional programs pursuant to this chapter, for physical education facilities in compliance with Title IX of the Elementary and Secondary Education Act of 1972 where such programs or such compliance cannot be provided within existing facilities or for the correction of code violations which cannot be reasonably addressed within existing program space; (B) create new facilities or alter existing facilities to enhance mandatory instructional programs pursuant to this chapter or provide comparable facilities among schools to all students at the same grade level or levels within the school district unless such project is otherwise explicitly included in another category pursuant to this section; and (C) create new facilities or alter existing facilities to provide supportive services, provided in no event shall such supportive services include swimming pools, auditoriums, outdoor athletic facilities, tennis courts, elementary school playgrounds, site improvement or garages or storage, parking or

House Bill No. 5524

general recreation areas.] All applications submitted prior to July first shall be reviewed promptly by the Commissioner of Administrative Services. The Commissioner of Administrative Services shall estimate the amount of the grant for which such project is eligible, in accordance with the provisions of section 10-285a, provided an application for a school building project determined by the Commissioner of Education to be a project that will assist the state in meeting its obligations pursuant to the decision in *Sheff v. O'Neill*, 238 Conn. 1 (1996), or any related stipulation or order in effect, as determined by the Commissioner of Education, shall have until September first to submit an application for such a project and may have until December first of the same year to secure and report all local and state approvals required to complete the grant application. The Commissioner of Administrative Services shall annually prepare a listing of all such eligible school building projects [listed by category together] with the amount of the estimated grants for such projects and shall submit the same to the Governor, the Secretary of the Office of Policy and Management and the General Assembly on or before the fifteenth day of December, except as provided in section 10-283a, with a request for authorization to enter into grant commitments. On or before December thirty-first annually, the Secretary of the Office of Policy and Management may submit comments and recommendations regarding each eligible project on such listing of eligible school building projects to the school construction committee, established pursuant to section 10-283a. Each such listing shall include a report on the following factors for each eligible project: (i) An enrollment projection and the capacity of the school, including who conducted the enrollment projection for the school and the cost of conducting such enrollment projection, (ii) a substantiation of the estimated total project costs, (iii) the readiness of such eligible project to begin construction, (iv) efforts made by the local or regional board of education to redistrict, reconfigure, merge or close schools under the jurisdiction of such board prior to submitting an application under this section, (v) enrollment and capacity information for all of the schools

House Bill No. 5524

under the jurisdiction of such board for the five years prior to application for a school building project grant, (vi) enrollment projections and capacity information for all of the schools under the jurisdiction of such board for the eight years following the date such application is submitted, [and] including who conducted the enrollment projection for the school and the cost of conducting such enrollment projection, (vii) the state's education priorities relating to reducing racial and economic isolation for the school district, and (viii) an estimation of the total ineligible costs and an itemization of such ineligible costs for such project. On and after July 1, 2022, each such listing shall include an addendum that contains all grants approved pursuant to subsection (b) of this section during the prior fiscal year. For the period beginning July 1, 2006, and ending June 30, 2012, no project [, other than a project for a technical education and career school,] may appear on the separate schedule of authorized projects which have changed in cost more than twice. On and after July 1, 2012, no project, other than a project for a technical education and career school, may appear on the separate schedule of authorized projects which have changed in cost more than once, except the Commissioner of Administrative Services may allow a project to appear on such separate schedule of authorized projects a second time if the town or regional school district for such project can demonstrate that exigent circumstances require such project to appear a second time on such separate schedule of authorized projects. Notwithstanding any provision of this chapter, no projects which have changed in scope or cost to the degree determined by the Commissioner of Administrative Services, in consultation with the Commissioner of Education, shall be eligible for reimbursement under this chapter unless it appears on such list. The percentage determined pursuant to section 10-285a at the time a school building project on such schedule was originally authorized shall be used for purposes of the grant for such project. On and after July 1, 2006, a project that was not previously authorized as an interdistrict magnet school shall not receive a higher percentage for reimbursement than that determined pursuant to section

House Bill No. 5524

10-285a at the time a school building project on such schedule was originally authorized. The General Assembly shall annually authorize the Commissioner of Administrative Services to enter into grant commitments on behalf of the state in accordance with the commissioner's categorized listing for such projects as the General Assembly shall determine. The Commissioner of Administrative Services may not enter into any such grant commitments except pursuant to such legislative authorization. Any regional school district which assumes the responsibility for completion of a public school building project shall be eligible for a grant pursuant to subdivision (5) or (6), as the case may be, of subsection (a) of section 10-286 when such project is completed and accepted by such regional school district.

(3) (A) All final calculations completed by the Department of Administrative Services for school building projects shall include a computation of the state grant for the school building project amortized on a straight line basis over a twenty-year period for school building projects with costs equal to or greater than two million dollars and over a ten-year period for school building projects with costs less than two million dollars. Any town or regional school district which abandons, sells, leases, demolishes or otherwise redirects the use of such a school building project to other than a public school use or a public use during such amortization period shall refund to the state the unamortized balance of the state grant remaining as of the date the abandonment, sale, lease, demolition or redirection occurs. The amortization period for a project shall begin on the date the project was accepted as complete by the local or regional board of education. A town or regional school district required to make a refund to the state pursuant to this subdivision may request forgiveness of such refund if the building is redirected for public use. The Department of Administrative Services shall include as an addendum to the annual school construction priority list all those towns requesting forgiveness. General Assembly approval of the priority list under section 10-283a, containing such request shall

House Bill No. 5524

constitute approval of such request. This subdivision shall not apply to projects to correct safety, health and other code violations or to remedy certified school indoor air quality emergencies approved pursuant to subsection (b) of this section or projects subject to the provisions of section 10-285c.

(B) If the board of governors for an independent institution of higher education, as defined in subsection (a) of section 10a-173, or the equivalent of such a board, on behalf of the independent institution of higher education, that operates an interdistrict magnet school makes private use of any portion of a school building in which such operator received a school building project grant pursuant to this chapter, such operator shall annually submit a report to the Commissioner of Education that demonstrates that such operator provides an equal to or greater than in-kind or supplemental benefit of such institution's facilities to students enrolled in such interdistrict magnet school that outweighs the private use of such school building. If the commissioner finds that the private use of such school building exceeds the in-kind or supplemental benefit to magnet school students, the commissioner may require such institution to refund to the state the unamortized balance of the state grant.

(C) Any moneys refunded to the state pursuant to subparagraphs (A) and (B) of this subdivision shall be deposited in the state's tax-exempt proceeds fund and used not later than sixty days after repayment to pay debt service on, including redemption, defeasance or purchase of, outstanding bonds of the state the interest on which is not included in gross income pursuant to Section 103 of the Internal Revenue Code of 1986, or any subsequent corresponding internal revenue code of the United States, as from time to time amended.

(b) Notwithstanding the application date requirements of this section, at any time within the limit of available grant authorization and within the limit of appropriated funds, the Commissioner of

House Bill No. 5524

Administrative Services, in consultation with the Commissioner of Education, may approve applications for grants and make payments for such grants, for any of the following reasons: (A) To assist school building projects to remedy damage from fire and catastrophe, (B) to correct safety, health and other code violations, (C) to replace roofs, including the replacement or installation of skylights as part of the roof replacement project, (D) to remedy a certified school indoor air quality emergency, (E) to install insulation for exterior walls and attics, or (F) to purchase and install a limited use and limited access elevator, windows, photovoltaic panels, wind generation systems, building management systems or portable classroom buildings, provided portable classroom building projects shall not create a new facility or cause an existing facility to be modified so that the portable buildings comprise a substantial percentage of the total facility area, as determined by the commissioner.

(c) No school building project shall be added to the list prepared by the Commissioner of Administrative Services pursuant to subsection (a) of this section after such list is submitted to the committee of the General Assembly appointed pursuant to section 10-283a unless (1) the project is for a school placed on probation by the New England Association of Schools and Colleges and the project is necessary to preserve accreditation, (2) the project is necessary to replace a school building for which a state agency issued a written notice of its intent to take the school property for public purpose, (3) it is a school building project determined by the Commissioner of Education to be a project that will assist the state in meeting its obligations pursuant to the decision in *Sheff v.
